Dear Sir / Madam,

SUBSTITUTION FORM

Building Consent No:

Address:

Owner:

PRODUCER STATEMENT

This Document is to advise that the interior wall and ceiling linings on the works under the above building consent have been changed from the "GIB" brand of plasterboard to the "Elephant" brand of plasterboard. Accordingly the steel stud bracing systems and ceiling diaphragm bracing systems have been changed to the "Elephant" plasterboard steel stud bracing systems.

The replacement steel stud bracing systems total performances either equal or exceed the performances of the systems originally specified or equal or exceed the bracing demand determined in the original calculations.

Accordingly any bracing elements using the GIB Steel Stud Bracing systems have been changed to the Elephant Steel Stud Bracing Systems as follows:

ECS-H (Standard board one side)	Replaces GS1s (Standard board one side)
ECSSH (Standard board both sides)	Replaces GS2s (Standard board both sides)
ECM-H (Multiboard one side)	Replaces GB1s (Braceline one side)
ECMPH (Multiboard one side Plywood on other)	Replaces GBPs (Braceline one side. Plywood on other)

We the Producer hereby confirm and declare that the above system changes will result in a system performance that will be either equal or exceed than that originally specified or equal or exceed the bracing demand.

Elephant Plasterboard NZ Ltd
