.....

Dear Sir / Madam,

SUBSTITUTION FORM

Building Consent No: BLD

Address:

Owner:

PRODUCER STATEMENT

This Document is to advise that the interior wall and ceiling linings on the works under the above building consent have been changed from the "GIB" brand of plasterboard to the "Elephant" brand of plasterboard where indicated, as per attached plan. Accordingly, the wall bracing systems and ceiling diaphragm bracing systems have been changed to the "Elephant" plasterboard bracing systems where indicated.

Where 13mm GIB Standard plasterboard is specified in the ceilings of non-wet areas, provided that the ceiling is not a part of a fire system, this can be replaced by 10mm Elephant Standard-Plus.

The replacement bracing systems' total performances either equal or exceed the performances of the systems originally specified or equal or exceed the bracing demand determined in the original calculations.

Accordingly, any bracing elements using the GIB Bracing systems have been changed to Elephant Bracing Systems where indicated, as per attached plan.

We the Producer hereby confirm and declare that the above system changes will result in a system performance that will be either equal or exceed than that originally specified or equal or exceed the bracing demand.

Elephant Plasterboard NZ Ltd
